

YEAR 4 STUDENTS SEND COVID CHEER UPS

During the hype of the Covid-19 pandemic, the Year 4 students discussed what groups of people might be struggling the most and how we could make a change. We decided that elderly people who were in nursing homes and were restricted from visitors and family members, would have been feeling very vulnerable and isolated during this time. To brighten their day each student created a piece of happy artwork with ideas of hope to help lift spirits around Adelaide. We sent artwork to Helping Hand at Parafield Gardens, Aveo The Haven at North Haven and to Alwyndor Aged Care at Hove. We received lots of compliments and thanks from both the staff and residents to our students for their artwork, which the students really connected with.

"It's so nice of the young ones thinking of us oldies! The art really cheered us all up during the lock down." Beryl

"There are many promising artists." Ron

"I enjoyed hearing back from the people who saw our work (Femi)"

"It was really fun designing the art for them (City)"

"I really liked making art for the elderly people to help make them happy (Yogesh)"

Thank you cards from Residents of AVEO Haven

To all the children who sent their art work to the residents of the AVEO "Haven".

You're so kind and thoughtful!

We appreciate your beautiful art work, it is very much appreciated and on display in our main building for all to see.

Thank you all for your contributions

From:

The residents of the HAVEN.
